To Whom It My Concern

I have known Lady Deborah Inc. for the past three years while serving as the Military Sealift Command Representative Jacksonville, and as a tenant command on Marine Corps Support Facility Blount Island in Jacksonville Fl.. LDI has provided excellent janitorial service to our command.

The manager, Genise is professionally known by me, her work ethic, strive for excellence, and attention to detail are far exceeding what is normally expected. The loyalty and conviction of her employees are a true testament of her leadership skills. The quality and effectiveness of her and her team are clear indicators that not only is a professional job being fulfilled but a personal interest in customer satisfaction is a top priority.

I enthusiastically recommend LDI for employment without reservation.

I may be contacted anytime, if you need further information.

Respectfully,

Dean R. Doolittle
